Who We Are

BIOERA is a leading Saudi firm headquartered in Riyadh, distinguished by its strategic global partnerships and expertise across multiple sectors.

In the biotech and pharmaceutical industries, **BIOERA** is specialized in delivering cutting-edge project management and engineering services for pharmaceutical factories. The company is renowned for its scientific and operational consulting, designed specifically for the biopharmaceutical sector, ensuring compliance to the highest industry standards. Drawing on its expertise and strong collaboration with global partners, we support clients in streamlining production, improving operational efficiency, and addressing the complexities of the biotech industry.

We feel proud while Serving a distinguished clientele across Saudi Arabia and the Gulf Cooperation Council (GCC), including the United Arab Emirates, Kuwait, Bahrain, Oman, and Qatar.

Our Services

From Idea to Production Turn Key Solution

Leading provider of engineering technologies for life sciences.

Pharma and Biotech consultancy solutions

Engineering consultancy

Biotech and Pharma Business development

Al-Driven knowledge management for manufacturing excellence

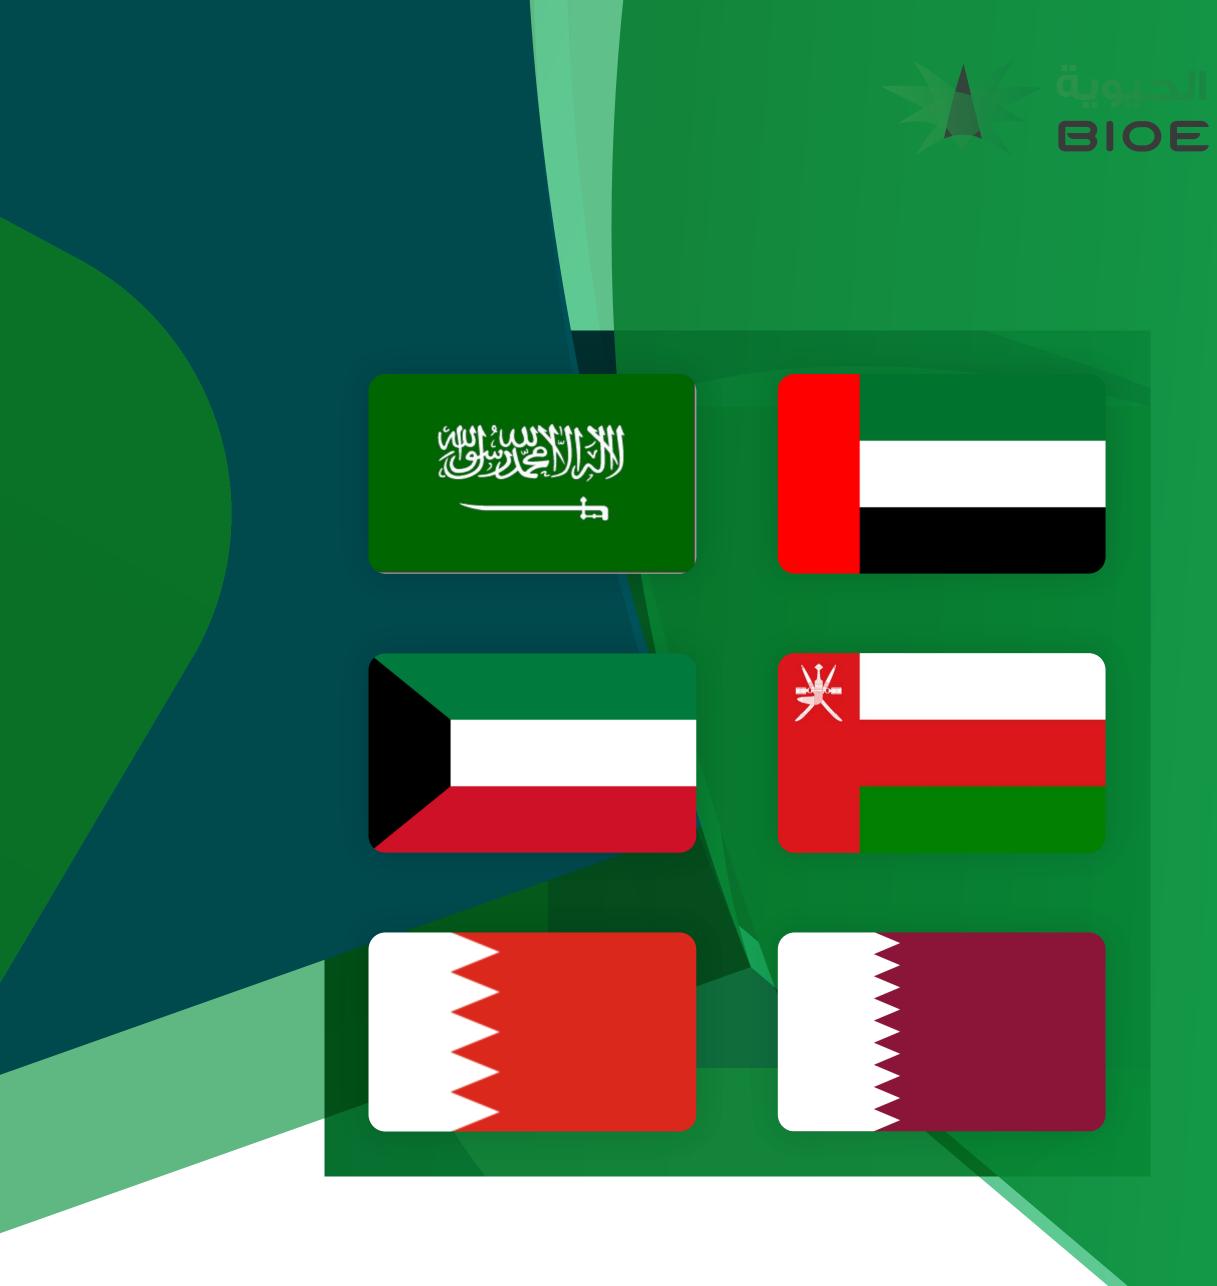

Serving the GCC Region

GCC is set up to undertake complete construction activities for industrial projects in the oil & gas, petrochemical, Pharmaceutical and biotechnology manufacturing other industrial sectors and related infrastructure fields, including power & water. Based in Riyadh, BIOERA has the capability to work throughout all areas of Saudi Arabia and other GCC countries. Construction services comprise complete coverage of civil, structural, mechanical, electrical and instrumentation disciplines.

VALGENESIS[™]

BIOERA's Global Strategic Partner

KeyPlants is a global company based in Sweden and a sister company of the German Dorsche Group. It offers comprehensive engineering services, specializing in prefabricated plant design and construction, project management, and facility design for factories, R&D, and innovation centers. KeyPlants provides cutting-edge engineering solutions for the life sciences and advanced technology industries.

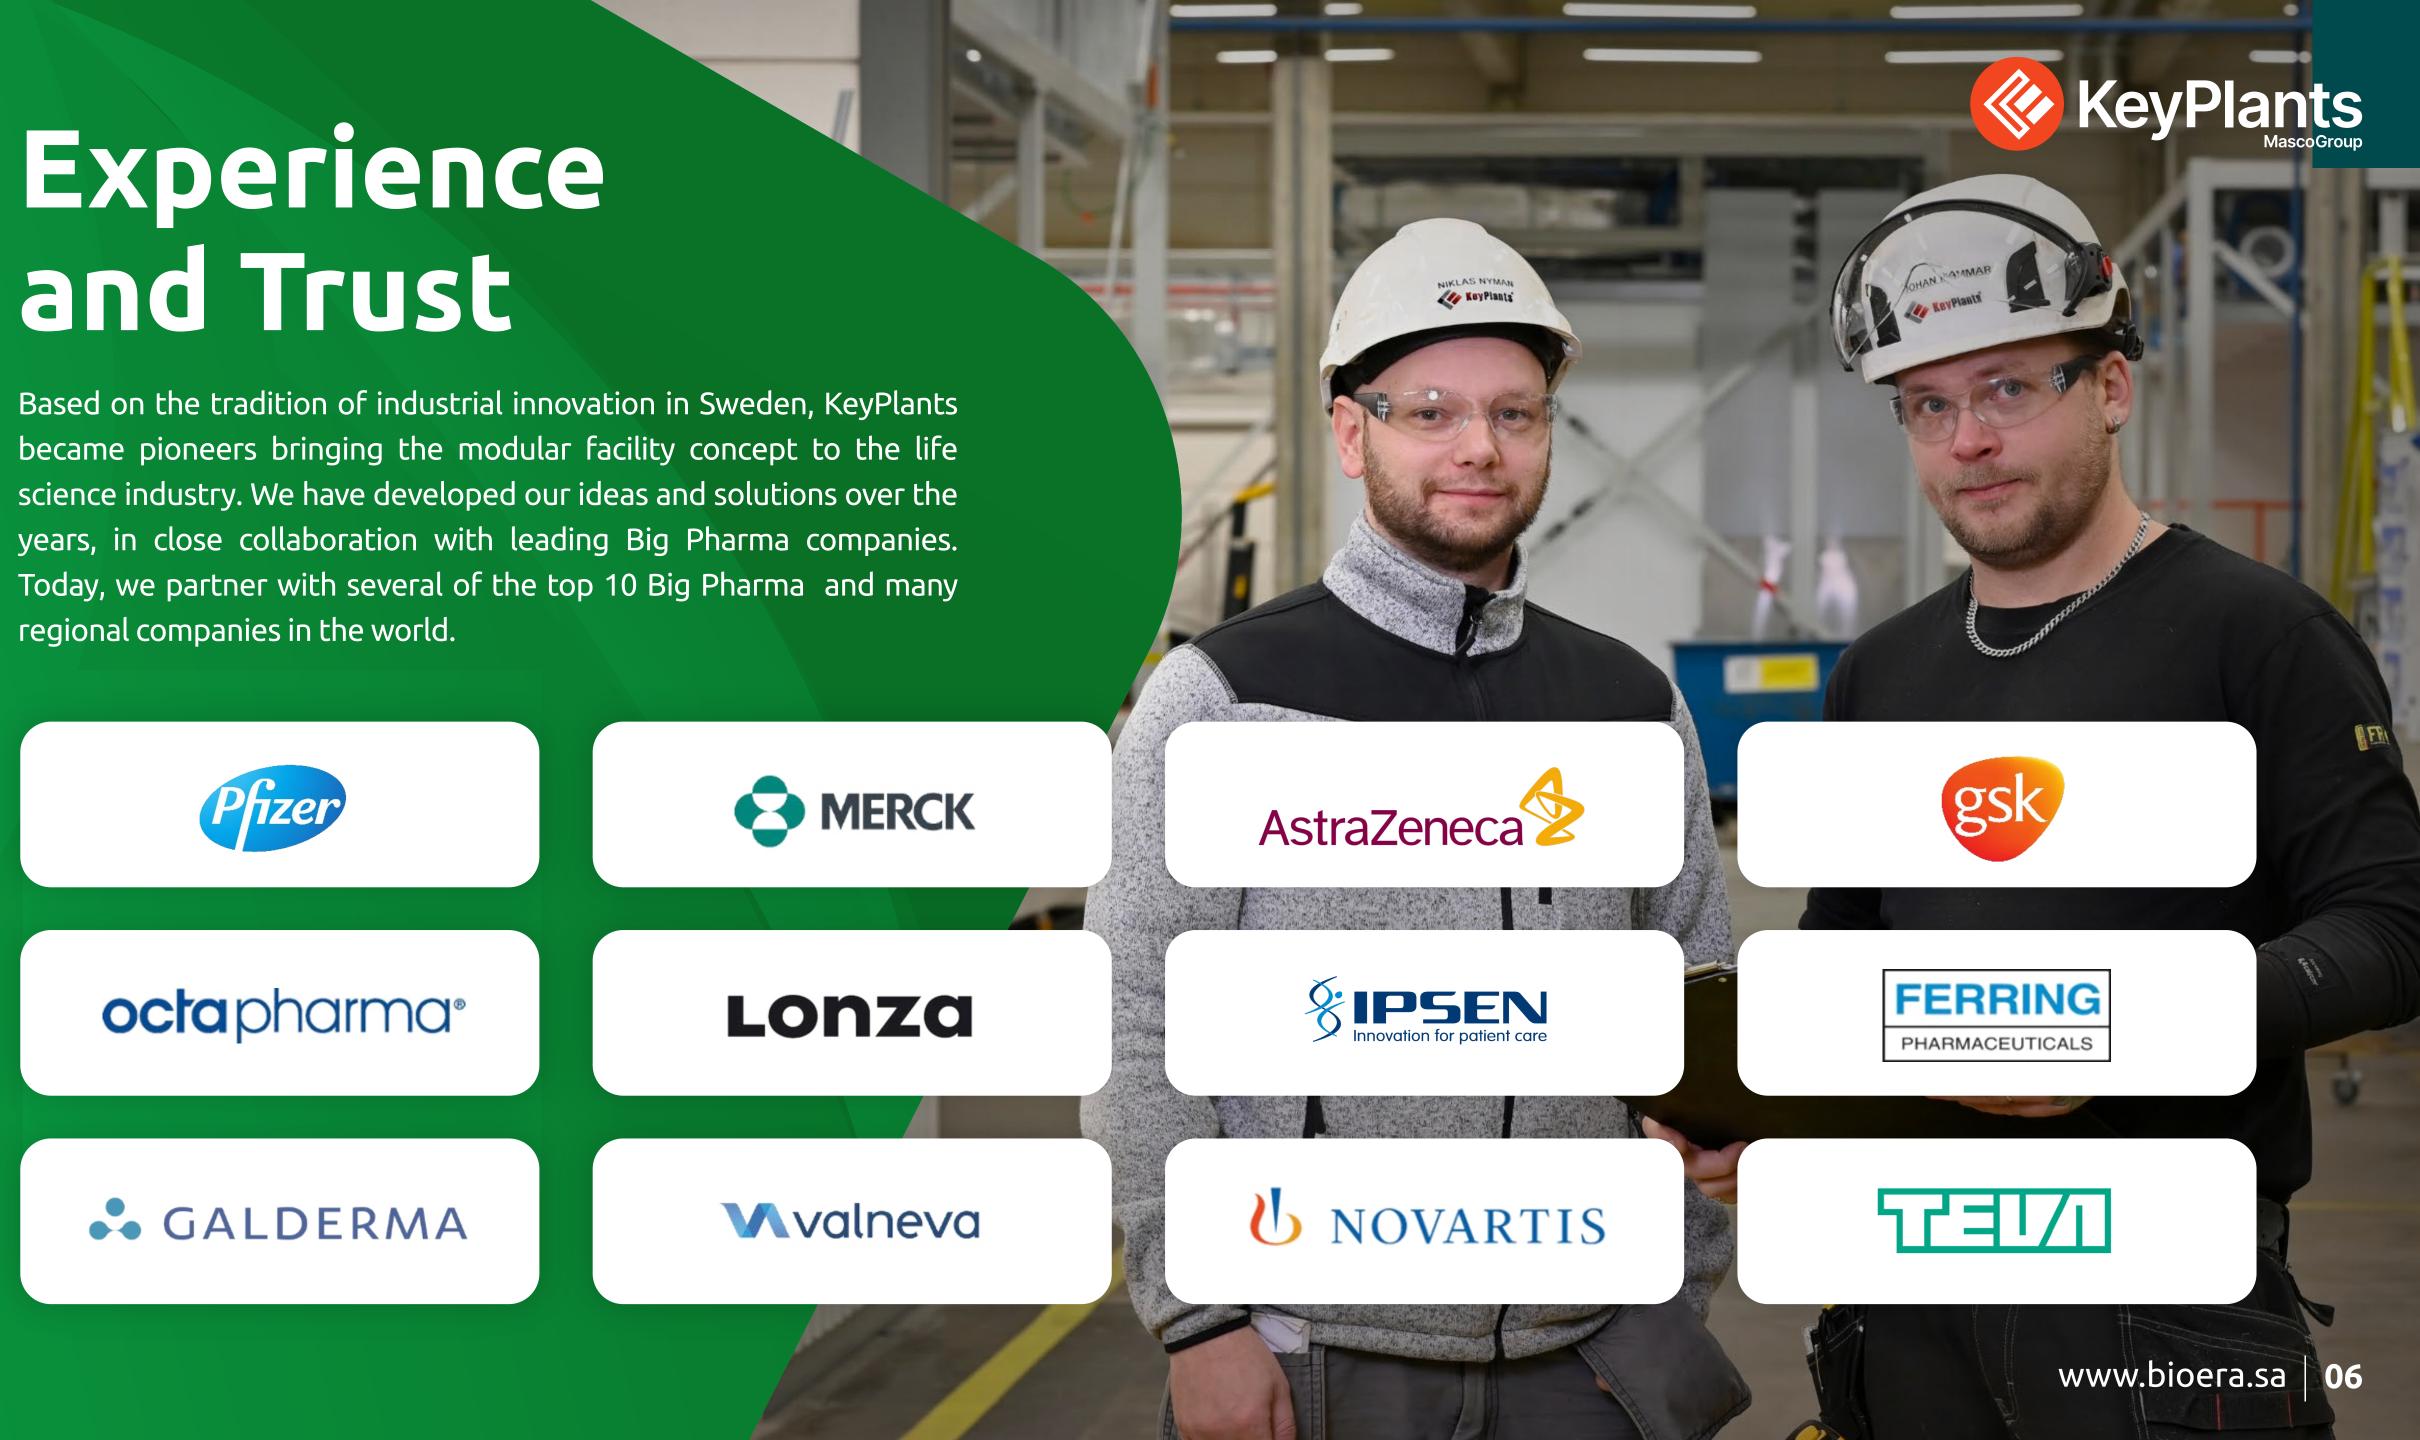

The KeyPlants team has successfully managed and executed over 220 industrial projects globally, for the leading companies such as AstraZeneca, MSD, Eli Lilly, GSK, Teva, Galderma, and Saudi Bio. Their proven expertise ensures the delivery of world-class solutions across the biopharmaceutical and life sciences sectors.

KeyPlants' Design Platforms: **MBSTM - Modular Bio Solutions and MASTM - Modular Aseptic Solutions**

KeyPlants' design platforms have been developed to simplify the construction of turnkey biopharmaceutical and aseptic filling pharmaceutical facilities. A flexible facility solution for rapid deployment of new biomanufacturing and aseptic filling facilities.

Speed

- Less design efforts an Alignment Study saves time for Engineering
- ♦ 4 months delivery time for prefabricated clean rooms
- 12 months delivery time for a \diamond complete facility for commercial production

Flexibility

- Configurable to any biomanufacturing \diamond or aseptic filling process
- Ability to add on unit operations such as fill finish
- Expandable to manage increased \diamond demand forecast
- Mobile to enable re-location

Predictability

- Fabrication in workshop secures predictable quality and timeline
- Fixed price on fixed scope after Basic Design

- Zyme Biotech

Global Biotech Consultants

A global consultancy dedicated to advancing biotechnology, working alongside premier biotech companies to launch new products, achieve operational success, and accelerate scientific breakthroughs.

With over a decade of specialized experience, Zyme Biotech has become an essential partner for top biotech firms, offering strategic insights and robust solutions that drive growth and innovation. More than just consultants, Zyme Biotech serves as innovation partners, delivering cutting-edge solutions throughout the entire biotech journey—from research and development to commercialization

- ZYME Four Step Process Biotech

Step 01

Discover & Define

Our experts collaborate with you to understand your unique needs and challenges.

- Review of your current operations and systems.
- Identify key areas of improvement.
- Customised Action Plan.

Strategize & Plan

Step 02

Our team develops a strategic plan that aligns with your business goals and the latest industry standards.

- Design a detailed roadmap with strategic initiatives.
- Integrate innovative technologies.
- Measurable goals for implementation.

Step 03

Implement & Optimize

Deployment of strategic plans with hands-on assistance, ensuring that every step is executed with precision.

- Provide onsite and remote support.
- Training and development.
- Guarantee successful execution.

Step 04

Evaluate & Enhance

Refine and optimize strategies for sustained success and future scalability

- Implement feedback mechanisms.
- Use data-driven approaches to measure success.
- Ongoing compliance.

Our Strategic Partr

Pioneering Solutions For You

ndustry,

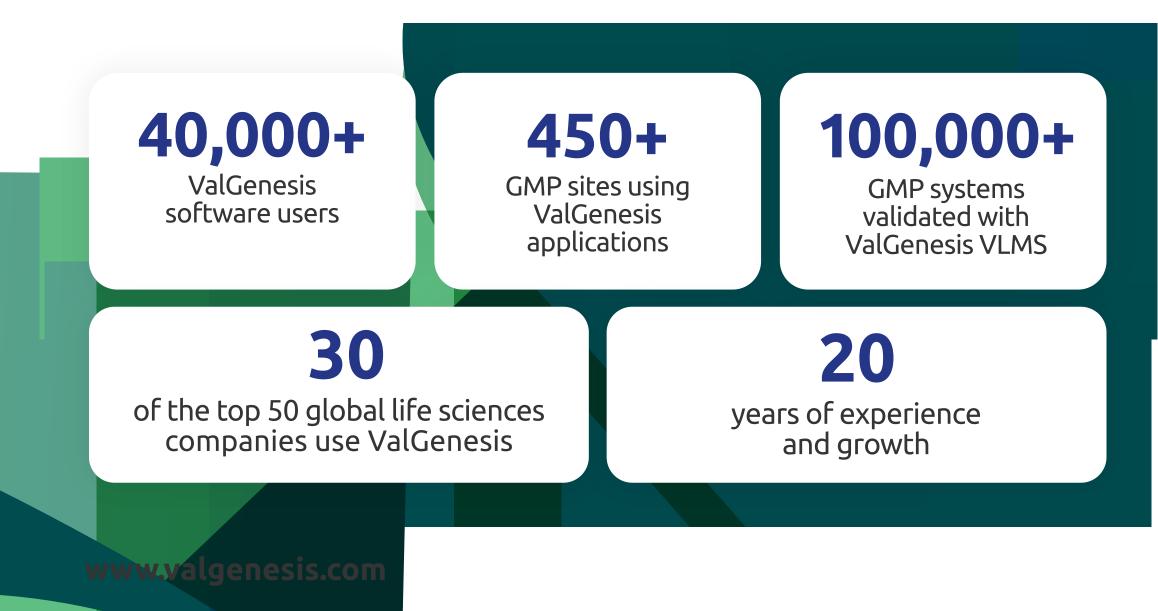

Inotek is process-driven company with an altruistic aim to pioneer turnkey solutions in the pharmaceutical industry through constant innovation and responsible partnerships.

VALGENESIS

The end-to-end digital validation platform

Connect design, qualification and production with the unified digital platform for life sciences. Drive new levels of digital transformation, manufacturing intelligence, total compliance, and corporate efficiency.

Our Strategic Partner **AI-solutions**

Revolutionizing Pharmaceutical Compliance with AI-Powered Knowledge Management

AskGxP is an AI-powered knowledge management platform designed specifically for the pharmaceutical industry. It helps streamline operations by automating the generation of compliant documents such as SOPs (Standard Operating Procedures) and research protocols. The platform offers instant AI-driven insights, chat assistance for expert guidance, and trend analysis to support decision-making.
